HURON-MANISTEE NATIONAL FORESTS

ISSUANCE OF TERM SPECIAL USE PERMITS FOR 83 EXISTING RECREATION RESIDENCES.

Forest Supervisor Barry Paulson is considering issuing Term Special Use Permits for 20-year terms to the owners of existing Recreation Residences on designated lots. In issuing the permits the authorized officer will include terms, conditions, and special stipulations that reflect new requirements imposed by current Federal and State land use plans, laws, regulations, or other management decisions. The proposed action is to issue special use authorization for a new term to replace existing or expired authorizations. There would not be any changes to the authorized scope or intensity of authorized activities. These permits would be issued to the current permit holders or applicants if the proposed uses are consistent with the Forest Plan and the applicants or holders are in full compliance with the terms and conditions of the special use authorization. The 83 existing recreation resident lots are located in the following areas: Newaygo County, T16N, R13W, Sections 19 and 20 near Sawkaw and Highbanks Lakes; Manistee County, T21N, R13W Section 19 near Dorner Lake; Oscoda County, T25N, R2E, Section 36 near Loon Lake and Sections 13, 14, 23, 24 near Wagner Lake; Iosco County, T24N, R6E, Sections 20, 21, and 24 near the Au Sable River.

All comments must in writing and be received no later than close of business on October 16, 2009 to Attn: Carol Boll, Forest Supervisor's Office, 1755 South Mitchell Street, Cadillac, Michigan 49601.

This decision is not subject to appeal pursuant to 36 CFR 215.12. The decision will be implemented on January 1, 2010. The deciding officer is Barry Paulson, Forest Supervisor.

For further information on this project contact Carol Boll at USDA Forest Service, Forest Supervisor Office, 1755 South Mitchell Street, Cadillac, Michigan 49601 or phone 231-775-2350 ext 18756; TTY/TTD 231-775-3183 (hearing impaired).
